Section 4: First Aid Measures

Emergency First Aid

GET MEDICAL ASSISTANCE FOR ALL CASES OF OVEREXPOSURE.

Inhalation: Remove to fresh air: give artificial respiration if breathing has stopped.

Ingestion: Wash out mouth with water provided person is conscious; get immediate medical attention.

Skin: Immediately flush thoroughly with large amounts of water. Remove contaminated clothing and wash before reuse. Seek medical attention.

Eyes: Immediately flush eyes thoroughly with water for at least 15 minutes. Seek medical attention.

Section 5: Fire Fighting Measures

Extinguishing Media: Use dry chemical powder.

Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing.

Fire & Explosion Hazards: Emits toxic fumes under fire conditions.

Section 6: Accidental Release Measures

Spill Response

Evacuate the area of all unnecessary personnel. Wear suitable protective equipment listed under Exposure / Personal Protection. Contain the release and eliminate its source, if this can be done without risk. Spill material should be disposed of accordingly (See section 12). Comply with all federal, state and local regulation on reporting releases. Refer to regulatory Information for reportable quantity and other regulatory data.

Section 7: Handling and Storage

Handling

Avoid inhalation and contact with skin, eyes, and clothing. Avoid prolonged and repeated exposure. Components containing human serum must be treated as biohazardous and handled following Universal Precautions.

Storage

Keep container tightly closed and protected against damage. Store under appropriate conditions away from incompatible chemicals.

Section 8: Exposure Control/Personal Protection

Safety Equipment

Safety showers and eye wash station.

Personal Protective Equipment

Engineering and/or administrative controls should be implemented to reduce exposure. Protective gloves must be worn to prevent skin contact. Safety glasses with side shields must be worn at all times. Impervious protective clothing should be worn to prevent skin contact.

Work and Hygiene Practices

Wash thoroughly after handling. Wash contaminated clothing before reuse.

Exposure Guidelines
